REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant application discloses a method and a device for processing signals of a digital transmission system in general, and for estimating the frequency offset of the transmission system in particular.

An exhaustive search of prior art records has failed to teach a method or device

"wherein the energy of a domain of the pulse response of the transmission system relative to the total energy of the pulse response is reduced with the aid of an all-pass filter, and wherein the all-pass filter is adapted to achieve a low-phase pulse response of the transmission system along with the remaining limitations of claims 1 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
